MEMORANDUM FOR: [redacted] PMD
Room 2032, R Building

SUBJECT : Suggestion 59-343

1. In accordance with your request, a memorandum from FAA on the merits of "Dispersal of Fog with Propane Gas" is attached.

2. Your attention is invited to those portions of the memorandum which state "We do not have any reason to believe that use of propane gas would have much chance of proving more successful than other methods. . . " (which in) ". . . service installations have been found to be operationally and economically unsatisfactory."

3. Therefore, I recommend that the suggestion be "Disapproved for Adoption," however, the initiator should be thanked for his efforts and advised that this Agency is always interested in receiving suggestions on new techniques or ideas.
